

I have listened to K-LOVE radio exclusively for six years. It is the best radio station I have ever heard and I am SO grateful it is available in my community. Other radio stations offer as entertainment obnoxious and offensive material I simply refuse to accept as the price I must pay for my music; K-LOVE is exactly the opposite. In ADDITION to soothing and uplifting music, the rest of their programming is equally beneficial. I would be LOATHE to lose this resource, no matter what it were replaced with. Such a station is a treasure, encouraging patriotism, family, individual responsibility, and the traditional values which hold communities together -- clearly the kind of influence best suited to the public interest. Please preserve K-LOVE's current status in my community.
